

Dutch Asset Management Information Exchange

26 March 2013, Hilton Amsterdam

(1600h to 20:00h)

SEAMS' latest round table for asset management professionals will be held in Amsterdam. The newly formed '**Dutch Asset Management Information Exchange**' is being guided by a steering group of Asset Management professionals from across the Netherlands and will focus on the drivers and challenges facing Dutch utility companies. This event will focus on how these challenges can be met via increasing organisations' capabilities and maturity in asset management. The key topic areas to be covered at the event are set out in the diagram below.

- **Case Studies** will be presented at the event from utility companies across a number of sectors
- **Lively peer group** discussion in an open forum
- Learn the **do's and don't** of asset management
